

**CAREER PROGRAMS**

**Cooperative Programs**

Moraine Valley has cooperative agreements with seven suburban community college districts that enable Moraine Valley district residents to enroll in occupational programs not currently offered by Moraine Valley at in-district tuition rates for that college. To qualify for the in-district tuition rate of the cooperating college district, students must contact the cooperating college district.

General education and related technical courses in these cooperative programs can be taken at Moraine Valley or at the cooperating college. Specialized career courses must be taken at the cooperating college.
