

University of Illinois at Urbana-Champaign- Moraine Valley Community College
Engineering Pathways Transfer Agreement Summary

The UIUC Engineering Pathways program provides guaranteed admission to the College of Engineering after completing the first two years of prerequisite courses at Moraine Valley. The program also seeks to provide opportunities for rigorous Engineering studies to students from low-income and diverse backgrounds. Admission to the Engineering Pathways program is competitive.

***Please note, the Engineering Pathways program is only available to high school students intending to graduate the current academic year and attend college for the first time at Moraine Valley. This program is not available to current Moraine Valley students, and is also not available to students who have already begun their college experience and are transferring to Moraine Valley.

Interested high school students can learn more by visiting the MVCC Engineering Pathways website at: <https://www.morainevalley.edu/academics/academic-programs/transfer-programs/transfer-agreements/engineering-pathways/>
